LOGO CREATION

OWLECTION

Commissioned for a school-wide Rice University elections website at this link:

owlection.appspot.com

ETHERNEST

Submitted for a logo design competition for the Rice student Hackerspace, the Ethernest,, an area where students can collaborate on hands-on electronics and other projects.

THRESHER

Created for the student-run school newspaper. An update of the original logo optimized for Facebook. This is scheduled to be implemented at the start of the semester.

CAMPUS-WIDE ELECTONS

Commissioned by the Rice University Student Association to produce campus-wide election promotionals during Spring 2015. Included are two samples.

"I PARTICIPATE" sticker design

Black and white, 8.5x11 flyer

GREEN DORM INITIATIVE

Commissioned by the Rice University EcoReps to produce campus-wide flyers advertising a month-long series of environmental challenges to raise student body awareness about living green.

LEARN ABOUT little WAYS IN WHICH YOU CAN MAKE
A **BIG** IMPACT AND PROMOTE A GREENER RICE

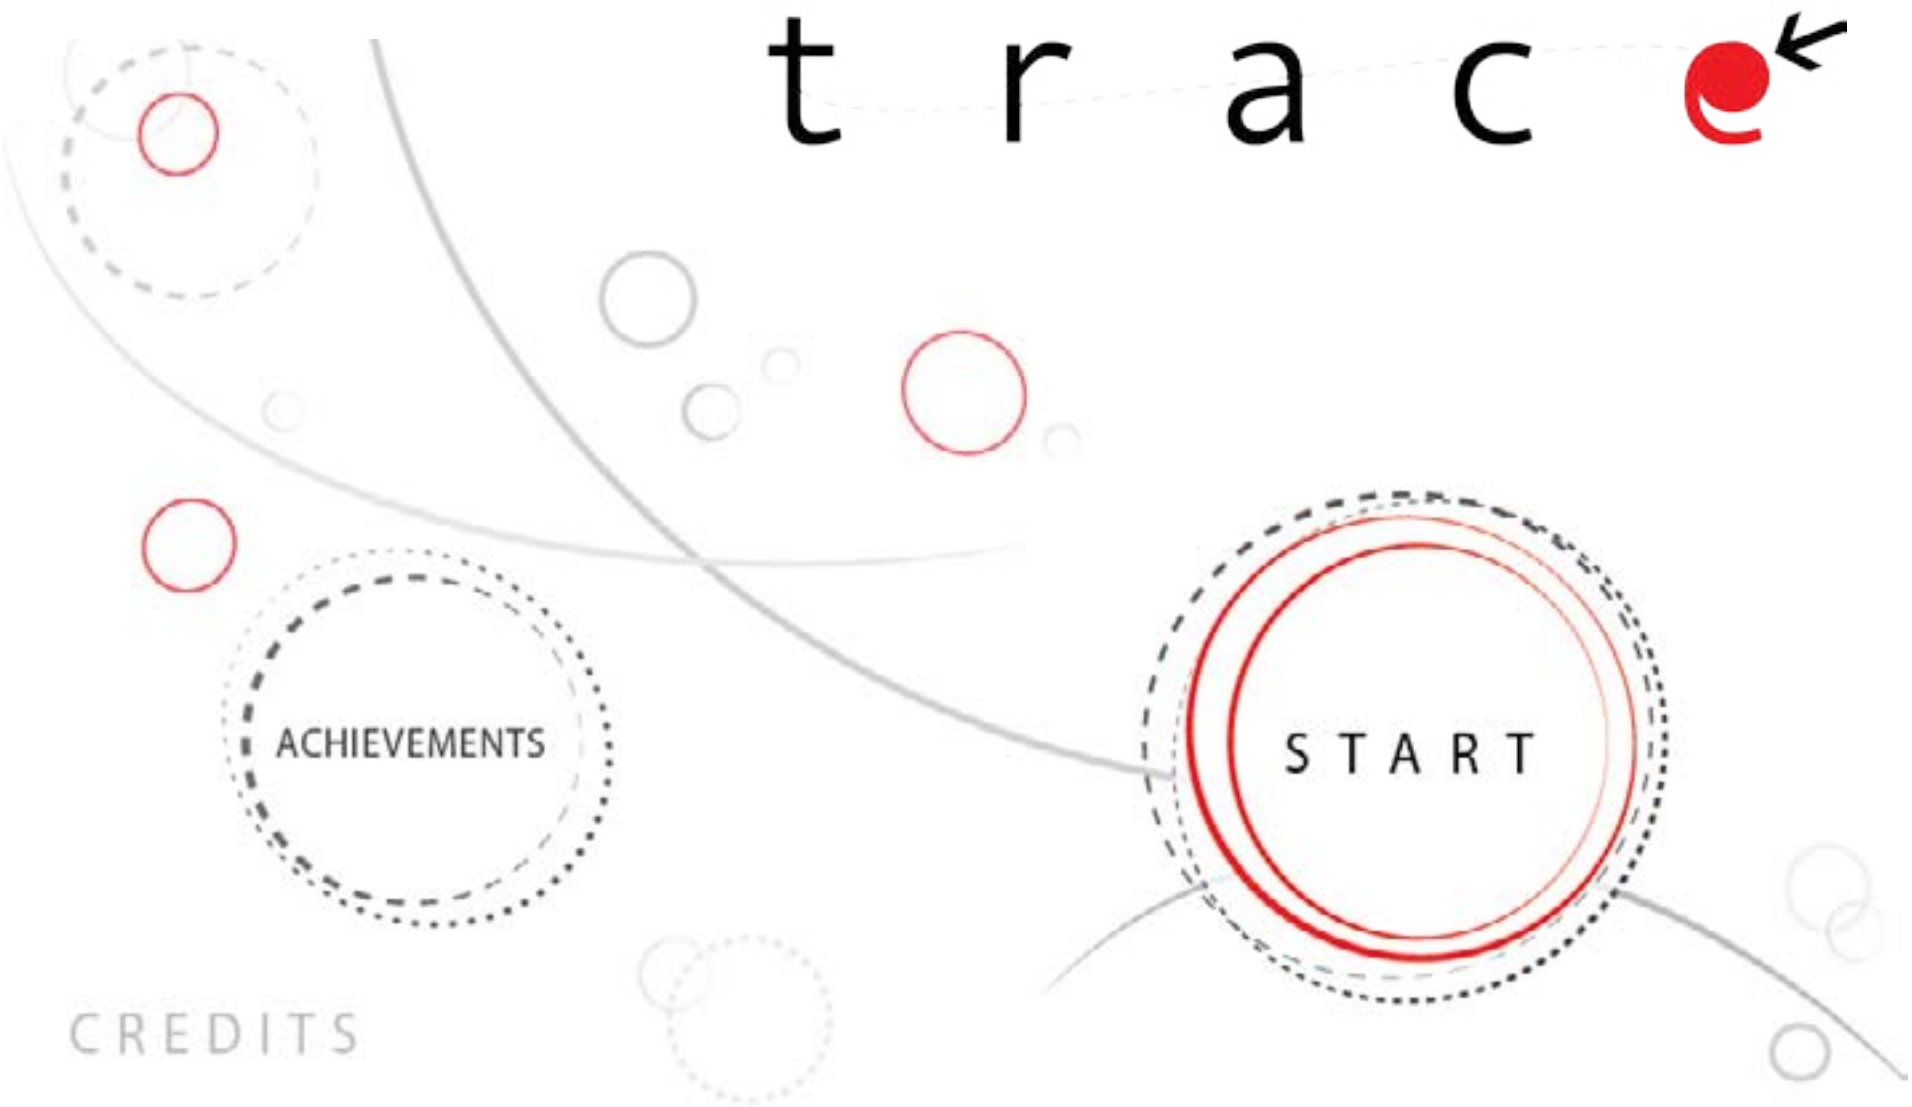
SPLASH SCREEN

Designed for a game that a friend wrote in Javascript during Fall 2013.
Released on three mediums:
Clay.io, Osu! forums, and Reddit's /r/html5games.



Start screen for the game

COVER ART

Designed for a game that I programmed in Python for a class during Fall 2013

Play the game!

MOBILE DEVELOPMENT

CURIOUS

I created a set of images designed for AngelHack, a hackathon in Silicon Valley during Summer 2014.

My team and I developed a working iOS app and web app, which was presented to a panel of judges and over a hundred teams.

We were one of the top ten finalists.

ABOUT ME

Lisa Huang
Senior at Rice University
Class of 2016
B.A. in Computer Science

My goal is to pursue a future in web development & design.
I love to learn new things, challenge myself, and help people.
Thank you so much for taking the time to look through samples of my original design work.
I look forward to working with you!
